

JAYNE SR52'

DAY SAIL EXCURSION SEARUNNER CATAMARAN

OVERALL REVIEW

The high performance Jayne SR52' Catamaran has been a culmination of over 40 years of building, owner operating, and off shore sailing multihull experience. These USCG certified daysail catamarans operate thru out the Caribbean, Bahamas and Florida today servicing the cruise ship and resort industries.

The Jayne 52' catamarans are built with modern materials and techniques. The structural integrity meet American Bureau of Shipping (ABS) Standards. The vessels are inspected by the USCG Marine Safety Officers monthly during construction. The vacuum-bagged, bulletproof hulls are high-grade marine Acume that offer durability. Great load carrying and seating capacity and the high underwing clearance, even when heavily loaded, provide a smooth comfortable ride even in rough sea conditions. "Reef Crunching Fixed Keels" creating an "exceptionally" durable bottom tolerating repeated beaching to load and unload passengers. Advanced safety features, huge stability, speed and maneuverability for serious commercial operations.
